150 SW Harrison St, Suite 400  
Portland, Oregon 97201

## Documentation of NW MAC Decisions

Decision 17  
August 13, 2013

---

National Preparedness Level	Northwest Preparedness Level
4	4

### Strategic Intent:

- Plan strategically for all suppression resources to recognize and adjust for the long term need.
- Continue to allocate/reallocate critical resources in support of IA, emerging large fires and incidents with short duration critical missions.

### PNW Incident Priorities (*set once per day*):

Priority	Fire	Unit	IC	AC/SGMAC	Rationale
1	Initial Attack				Initial Attack Always first Priority
2	Douglas Complex	OR-DFPA (732)	Sifford		Drying conditions are allowing for burn-out; IR identified heat sources near contained perimeters
3	Big Windy Complex	OR-MED	Lewis		Implementing best containment strategy considering firefighter exposure; drying conditions are allowing for burn-out
4	Whiskey Complex	OR-UPF	Johnson		Drying conditions are allowing for burn-out; high concern for industrial/timber lands
5	Milepost 10	WA-SES	Barnett		State mobilization released; mop-up ongoing; TOC expected 8/15 or 8/16
6	GC Complex	OR-MAF	Watts		Objectives nearing completion; TOC on 8/14
7	Westside Complex	WA-COA	Leitch		Objectives nearing completion; full demob 8/15
